#### **DETAILED ACTION**

Page 2

#### Oath/Declaration

1. The declaration filed on Dec. 20, 2004 is acceptable.

### Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1, 39-44 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite

for failing to particularly point out and distinctly claim the subject matter which applicant

regards as the invention.

The phrase "said welding bridge" (claim 1, line 2) should read -said weldingless bridge--;

otherwise, this phrase has no antecedent basis. The features "two guiding grooves spacedly

formed on a rear side of said primary bridge" (claims 39-41, lines 4-5) are undefined clearly. The

features "two guiding grooves formed on inner side of said lenses" (claims 42-44, lines 4-5) are

undefined clearly. Does the applicant mean "said lenses" (claims 42-44, line 5) by -said primary

lenses—or --said shelter lenses--? There is no drawings show such grooves formed on inner sides

of said lenses.

# Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the 4. basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 1,29,31,33,36,39,42,45 are rejected under 35 U.S.C. 102(b) as being anticipated by Underwood (5,546,140).

The limitations in claims 1,29,31,33,36,39,42,45 are shown in Underwood's Figs. 22-24, column 12, line 60 through column 13, line 30. Underwood discloses a spectacle set 400, comprising two lenses 402 and a weldingless bridge 404, wherein said bridge 404 comprises a bridge body 406 having two lens holding arms 408 coupling with two inner sides of said lenses 402 respectively and two functioning arms 412 integrally and rearwardly extended from said bridge body.

Regarding claim 29, since the spectacles set is a clip-on sunglass, a primary spectacle is inherently included in the Underwood's spectacle set.

Regarding claims 36, Underwood shown in Figs. 22-24, the resilient arms 412 has a guiding tip 414.

6. Claims 1,2 are rejected under 35 U.S.C. 102(e) as being anticipated by Masunaga (6,793,338).

The limitations in claims 1-2 are shown in Masunaga's Figs. 1,2,4, columns 4-6, Masunaga discloses a spectacle set, comprising two lenses 1 and a weldingless bridge 2, wherein said bridge 2 comprises a bridge body 21 having two lens holding arms 22,23 coupling with two inner sides of said lenses 1 respectively and two functioning arms 24 integrally and rearwardly extended from said bridge body; and two side extensions 3 rearwardly extended from two outer sides of said lenses respectively and two nose pieces P coupling two free ends of said functioning arms 24 respectively, wherein said two functioning arms are respectively formed as two nose

Application/Control Number: 10/761,624 Page 4

Art Unit: 2873

supporting arms to support said nose pieces in position such that said weldingless bridge is formed as a primary bridge to support said lenses in position so as to form a primary spectacle.

## Claim Rejections - 35 USC § 103

- 7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
  - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 8. Claims 3,6,8,11,14,17,20,23,26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Masunaga in view of Underwood.

Masunaga discloses the claimed invention as discussed above, but does not mention a detachable shelter frame attached to the spectacles. It is well known in the art to use a detachable shelter frame attached to the spectacles for providing an additional need for the user such as sunglasses, for example, as taught by Underwood. It would have been obvious at the time the invention was made to a person having ordinary skill in the art to modify the Masunaga's pair of spectacle in light of Underwood's teaching by using a detachable shelter frame attached to the spectacle for the same purpose as disclosed by Underwood as the same as the applicant does.

### Allowable Subject Matter

- 9. Claims 4,5,30 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
- 10. Claims 7,9,10,12,13,15,16,18,19,21,22,24,25,27,28,32,34,35,37,38,40,41,43,44,46,47 are objected to as being dependent upon the above objected claims.
